

Taxi 2000 Presentation to the Rochester City Council

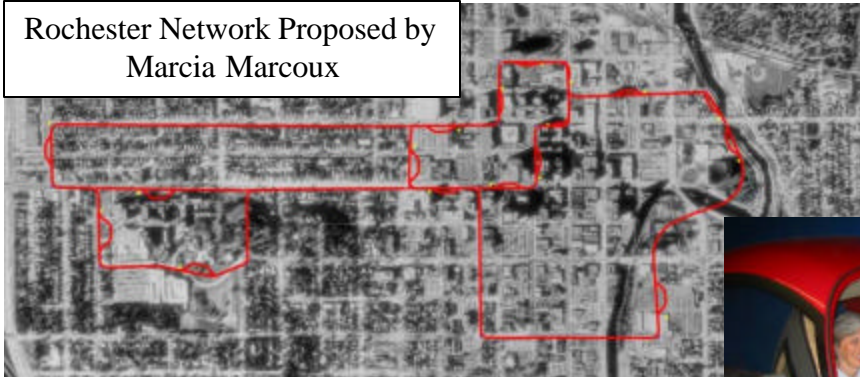

Taxi 2000 welcomes the chance to update the Rochester City Council on recent developments and progress with the development of our system, SkyWeb Express.

Several conversations in recent months make us interested in offering our system as way for Rochester to **maintain a viable downtown**, to **improve air quality**, and to **strengthen the public transportation system**.

Taxi 2000 CEO Morrie Anderson and Vice-President of Sales & Marketing Jeral Poskey will give a short presentation that includes: 1) An overview of the SkyWeb Express system, 2) a description of how SkyWeb Express could be built in Rochester, and 3) a discussion of the benefits of a such a system, followed by questions from the Council.

Those wanting more information are encouraged to visit www.skywebexpress.com .
