

# 2019 Public Works Construction Project Summary

## Overlay of the South Zumbro River Trail (J4857)

Construction is expected to start May 2 and be completed by May 31, 2019.

The existing trail along the east side of the Zumbro River from Highway 52 to Highway 14 will be widened to 10 feet. A connection to 5th Avenue SW will also be built.

### Project Benefits

The proposed project will widen the existing 8-foot path to be a 10-foot path and create a connection to 5th Avenue SW.

### Project Location

### Construction Impacts

Impacts to recreational trail users:

- The existing path facilities will be closed. Users will be detoured within the work areas.

### Project Cost and Funding

The estimated project cost is \$150,000 and is funded by Flood Control Funds.
